December 2017 Recap

- Elgin is getting ready to start scheduling Roving Chef's in January. This is a great class to teach the students about healthy eating. The students get to tour the kitchen to see what goes on behind the scenes, make a dish to try, and take the recipe home to share with their family. We are excited that the first class to participate in this program will be Barbara Stroud's.
- The students, teachers and kitchen staff had a lot of fun during the month of December. There were pajama days, Grinch days, and fun with Santa.

This month we would like to recognize Misti Knight.

Misti is the kitchen manager of the middle school. She is always kind, and one of the hardest working women I have the privilege of having on my staff. She is the head cook, and is always willing to jump onto the serving line, work one of the computers, or get in the dish room if needed. Thank you for all of your hard work!
